Explain determinant: medication impaired driving

Explain the cause/s of medication impaired driving. (Why did it happen?)	I can identify medication impaired driving but I need help to identify a relevant determinant.	I can identify medication impaired driving and one relevant determinant	I can identify medication impaired driving and several relevant determinants	**and** I can give reasons for the determinants	**and** I can : - generalise about the causes of substance impaired driving - evaluate the causes of Substance impaired driving
Effective Strategies *[insert strategies suggested by students and teachers]*				"because"	'Overall I think … because … because …"
