Explain implications: medication impaired driving

Explain the implications for well-being of medication impaired driving. (Why did it happen?)	I can identify medication impaired driving but I need help to identify a implication for well-being.	I can identify medication impaired driving and one relevant implication for well-being.	I can identify medication impaired driving and several implications for well-being from each of the three perspectives	**and** I can give reasons for the implications for well-being and explain how the dimensions of well-being inter-relate.	**and** I can : - generalise about the implications for well-being of medication impaired driving - evaluate the implications for well-being of medication impaired driving
Effective Strategies *[insert strategies suggested by students and teachers]*			Personal Interpersonal Societal	"because"	'Overall I think … because … because …"
