

Learning as if your life depended on it

The NZ Transport Agency is running the NZTA_remix competitions to encourage schools with students in years 9-13 to create resources for their schools and communities using digital technology.

PRIZES FOR EACH OF THREE COMPETITIONS:

- \$10,000 vouchers (of your choice) for the school
- \$2000 to support a teacher and students to present their school's entry at the ICOT International Conference on Thinking in January 2013
- 5 × \$500 vouchers for members of the winning team

The theme for the competition is 'Safer Journeys for teens'. Road safety is a shared responsibility, a responsibility that belongs to the whole community, not just the people using the road at a given moment or road safety professionals.

Visit www.education.nzta.govt.nz for more details.
