8.2 KEA CROSSING SPECIFICATIONS

This diagram is also available online at education.nzta.govt.nz.

Note: The length of the no stopping restriction on the approach side may be reduced to a minimum of 6m where bulbous kerbs, at least 1.8m wide, or inset parking are provided to ensure adequate visibility. On the departure side, the length of the no stopping restriction must be a minimum of 6m.

From Land Transport Rule: Traffic Control Devices
Schedule 2

- All measurements are shown in millimetres unless otherwise stated.
- W16-4 and W16-5.1 are permanent yellow-green fluorescent ‘children’ and ‘school’ warning signs.
- B is where the removeable orange or red ‘children’ flag signs are placed when the kea crossing is operating.
- A is where the red school patrol ‘STOP’ signs are placed when the kea crossing is operating.
